

Professional statement

Persona :

I am a motivated BCA student with the Google Cybersecurity Professional Certificate and hands-on experience in security operations, risk assessment, and incident detection. Skilled in Linux, SQL, Python, Wireshark, and Splunk, I have completed projects in phishing awareness, log analysis, packet analysis, and SQL injection testing. I also like analyzing complex tasks. I have a passion for technology and enjoy helping others. I am interested in the field of security but have no previous experience. I want an entry-level cybersecurity position that will utilize my drive and thirst for knowledge. I am eager to apply my problem-solving and technical skills in an entry-level cybersecurity role while continuing to grow as a professional.

persona's draft professional statement:

I am a BCA student with a strong interest in cybersecurity, passionate about technology, problem-solving, and safeguarding digital systems. I aim to apply my skills in an entry-level role while continuing to grow as a professional.
